

## Construction Notice – Tree removals near 111 Street and Saddleback Road/19 Avenue

Beginning on or around **December 18**, Ledcor, the Design-Build contractor for the project, will remove approximately 20 trees west of 111 Street, south of Saddleback Road/19 Avenue. This work is necessary to prepare for grading and roadwork planned for the new year. Please refer to the map below.

- This work is anticipated to take approximately three days.
- Work will occur on weekdays between 7:00 a.m. and 5:00 p.m.
- Pedestrians using the adjacent path may be temporarily stopped at times to accommodate vehicles and workers.
- No traffic disruptions are expected during the work.
- Efforts will be made to minimize noise, vibration and dust. Mitigation measures will be implemented to monitor and reduce these impacts.

In accordance with the municipal [Public Tree Bylaw](#), all tree removals will be conducted under the supervision of certified arborists. Ledcor acknowledges Edmontonians are passionate about trees and the desire to maintain the city's extensive urban canopy. The decision to remove a tree is never taken lightly. Once project construction is complete, new

vegetation including trees, native grassland, shrubs and flowers will be planted along portions of the alignment.
