

Do you have traffic safety concerns in your neighbourhood? We want to hear from you!

Fulton Place has been selected for a Vision Zero Street Lab. The City would like to hear about your traffic safety concerns driving, walking, biking or rolling in your neighbourhood to help improve road safety and livability in your community.

What is a Vision Zero Street Lab?

Vision Zero Street Labs is a program designed to address neighbourhood traffic safety concerns by installing traffic calming measures. Each Street Lab is tailored to the unique needs of the neighbourhood and its road users in order to address concerns such as speeding, shortcutting and other unsafe driving behaviours.

Public Engagement

Interactive Online Map: Open September 16 to October 7

Identify locations of where you have traffic safety concerns in the neighbourhood.
