

Gariepy Neighbourhood Renewal

Gariepy Park construction update

Edmonton

September 2025

Dear Resident,

In September 2025, construction will begin on two small bridges crossing Gariepy Ravine as part of the Neighbourhood Renewal project. The Neighbourhood Renewal project details can be viewed at edmonton.ca/BuildingGariepy.

During public engagement, we heard support for two new fully accessible ravine crossings. These bridges will create connections currently missing in the neighbourhood. Bridge foundations and site work will begin soon, followed by installation of the bridge structures.

The bridges will be delivered to site in prefabricated pieces and hoisted into place by a large crane. The project will take approximately eight to 10 weeks. Some landscaping restoration will be completed in the spring of 2026.

Impacts to the community during construction include noise and vibration from construction equipment and increased traffic in the area.

To ensure public safety during construction, there will be temporary trail closures and detours to allow the contractor to work safely. Fencing and detour signage will be installed to direct the public around the work areas. *(Please see detour locations on the attached map on the other side of this notice.)*
