

Do you have traffic safety concerns in your neighbourhood? We want to hear from you!

A Vision Zero Street Lab is being considered for **Jackson Heights**! The City would like to hear about your lived experience to help determine if a Vision Zero Street Lab would improve road safety and livability in your neighbourhood.

What is a Vision Zero Street Lab?

Vision Zero Street Labs are a great way to work with the City to bring traffic safety improvements to your neighbourhood using adaptable measures. Each Street Lab is tailored to the unique needs of the neighbourhood to creatively address community problems such as speeding, shortcutting and other unsafe driving behaviours.

Engagement Opportunities

To register for the engagement opportunities **November 4 - 25, 2024**, [scan this QR code](#) with your smartphone camera or visit edmonton.ca/StreetLabs

In-Person Engagement: Tuesday, November 5, 2024, 5:30 p.m. - 7:30 p.m.

Burnewood Community League Hall, 4118 41 Avenue NW

Meet with City staff to learn about Street Labs, ask questions and discuss accessibility, mobility and street safety.

Online Interactive Map: available November 4 - 25

Pinpoint traffic safety concerns on the interactive online map and answer a series of related survey questions to share more information.
