SHADES OF COLOUR

Shades of Colour (SOC) is a completely volunteer run grassroots organization that exists to create space for QTIBPOCs (queer and trans, Indigenous, black, and people of color) in Amiskwaciy (Edmonton) and we ask that they stay prioritized. Shades of colour initially emerged because many communities felt as though there weren't accessible QTBIPOC closed supportive spaces in the city that didn't center whiteness, but that has changed over the years.

During the pandemic, and over the past couple years, we have shifted programming to focus more on mutual aid and harm reduction. Poor, low income, and houseless racialized QTBIPOC are not being centered in advocacy work and because of that, our work has shifted in directions that better advocate for and with our communities. We are currently focused on doing outreach on sundays, directing people towards resources when we can, and providing mutual aid.
