

LETTER OF UNDERSTANDING

Between

The City of Edmonton

And

Canadian Union of Public Employees Local 30

Appendix I, Schedule of Wages - New Classification

Overhead Door Technician

The parties agree to create the following new classifications in the Schedule of Wages, effective from January 14, 2024.

Rates effective: January 14, 2024.

Job Level Overhead Door Technician

Job Code	Job Code Description	Salary Admin Plan	Pay Grade	Standard Hours
TBD	Overhead Door Technician	10M	022	40

	1st Year	Thereafter
Hourly	35.129	36.375
Annual	\$73,349.35	\$75,951.63

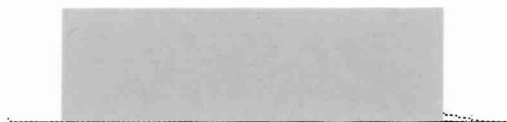

Rationale:

The purpose of creating a new CUPE classification for Overhead Door Technicians is to ensure the business area can hire individuals who meet the necessary qualifications to perform the work. Overhead Door Technician work is currently being completed by individuals classified as Maintenance Repairperson Is and IIs. Using the Maintenance Repairperson I and II classification stream prevents the City from including the requirement for the necessary certifications employees must possess to perform overhead door work safely and efficiently in the recruitment process.

SIGNED this 29th day of February A.D. 2024
