Application Details

The City has received a Rezoning application from the City of Edmonton Real Estate Branch on behalf of the Housing Action Team. The current zone is the Future Urban Development Zone (FD) and the proposed zones are the Parks and Services Zone (PS) and the Medium Scale Residential Zone (RM h16).

The PS Zone would allow:

- community uses, including Parks and Child Care Services
- a maximum height of 16.0 m (approximately four storeys)

The RM h16 Zone would allow:

- for medium scale housing, including multi-unit housing in the form of row housing and/or apartment housing
- a maximum building height of 16.0 m (approximately four storeys)
- a minimum density of 45 dwellings/ha

Site History

In 2015, City Council designated 14 surplus school sites for affordable housing. The development of these sites is guided by policy C583A, which prioritizes access to affordable housing, increased housing choice and the integration of housing, services and amenities.

Two surplus school sites have already been prepared for development and sold at below-market value to affordable housing providers. The remaining 12 surplus school sites will be developed over the next three years. This includes seeking Council's approval of rezoning, and municipal reserve removal, where required, and a below-market land sale to an affordable housing provider.

In spring 2024, the Housing Action Team is pursuing rezoning approval for five sites, including Lymburn. For more information about the City's efforts to create more affordable housing, please visit edmonton.ca/HousingDevelopments or email the Housing Action Team at affordablehousing@edmonton.ca.

Rezoning

Learn more about the rezoning application and provide feedback online.

Dates: May 27, 2024 to June 9, 2024

Website: engaged.edmonton.ca/LymburnSurplus

The online engagement will provide an opportunity to view the proposed rezoning and provide your comments and feedback, which will be summarized and given to City Council for their consideration prior to making a decision on the proposal. Please provide your comments by **June 9, 2024**.

Subdivision

The City is also reviewing an associated Subdivision application to create one multi-unit housing lot. Please see the attached Subdivision map. The City will issue a decision on the proposed subdivision based on compliance with the applicable lot dimensions in Edmonton's Zoning Bylaw 20001 and technical requirements, such as the site's infrastructure capacity. Section 653 of the Municipal Government Act requires the City to notify adjacent landowners when a subdivision application has been received. Responses will be received until **June 9, 2024**. Please note that the Subdivision Authority is not bound by any comments received when rendering its decision.

Next Steps

We are in the early stages of reviewing the rezoning application and requesting your opinion on both the rezoning and the subdivision applications. In addition to your opinion, we are requesting comments and a technical review from other City departments and utility agencies. The information we receive will be used to evaluate the application and make a recommendation to City Council for the rezoning. Once the review is complete, the rezoning application will be scheduled for a Public Hearing for City Council consideration.

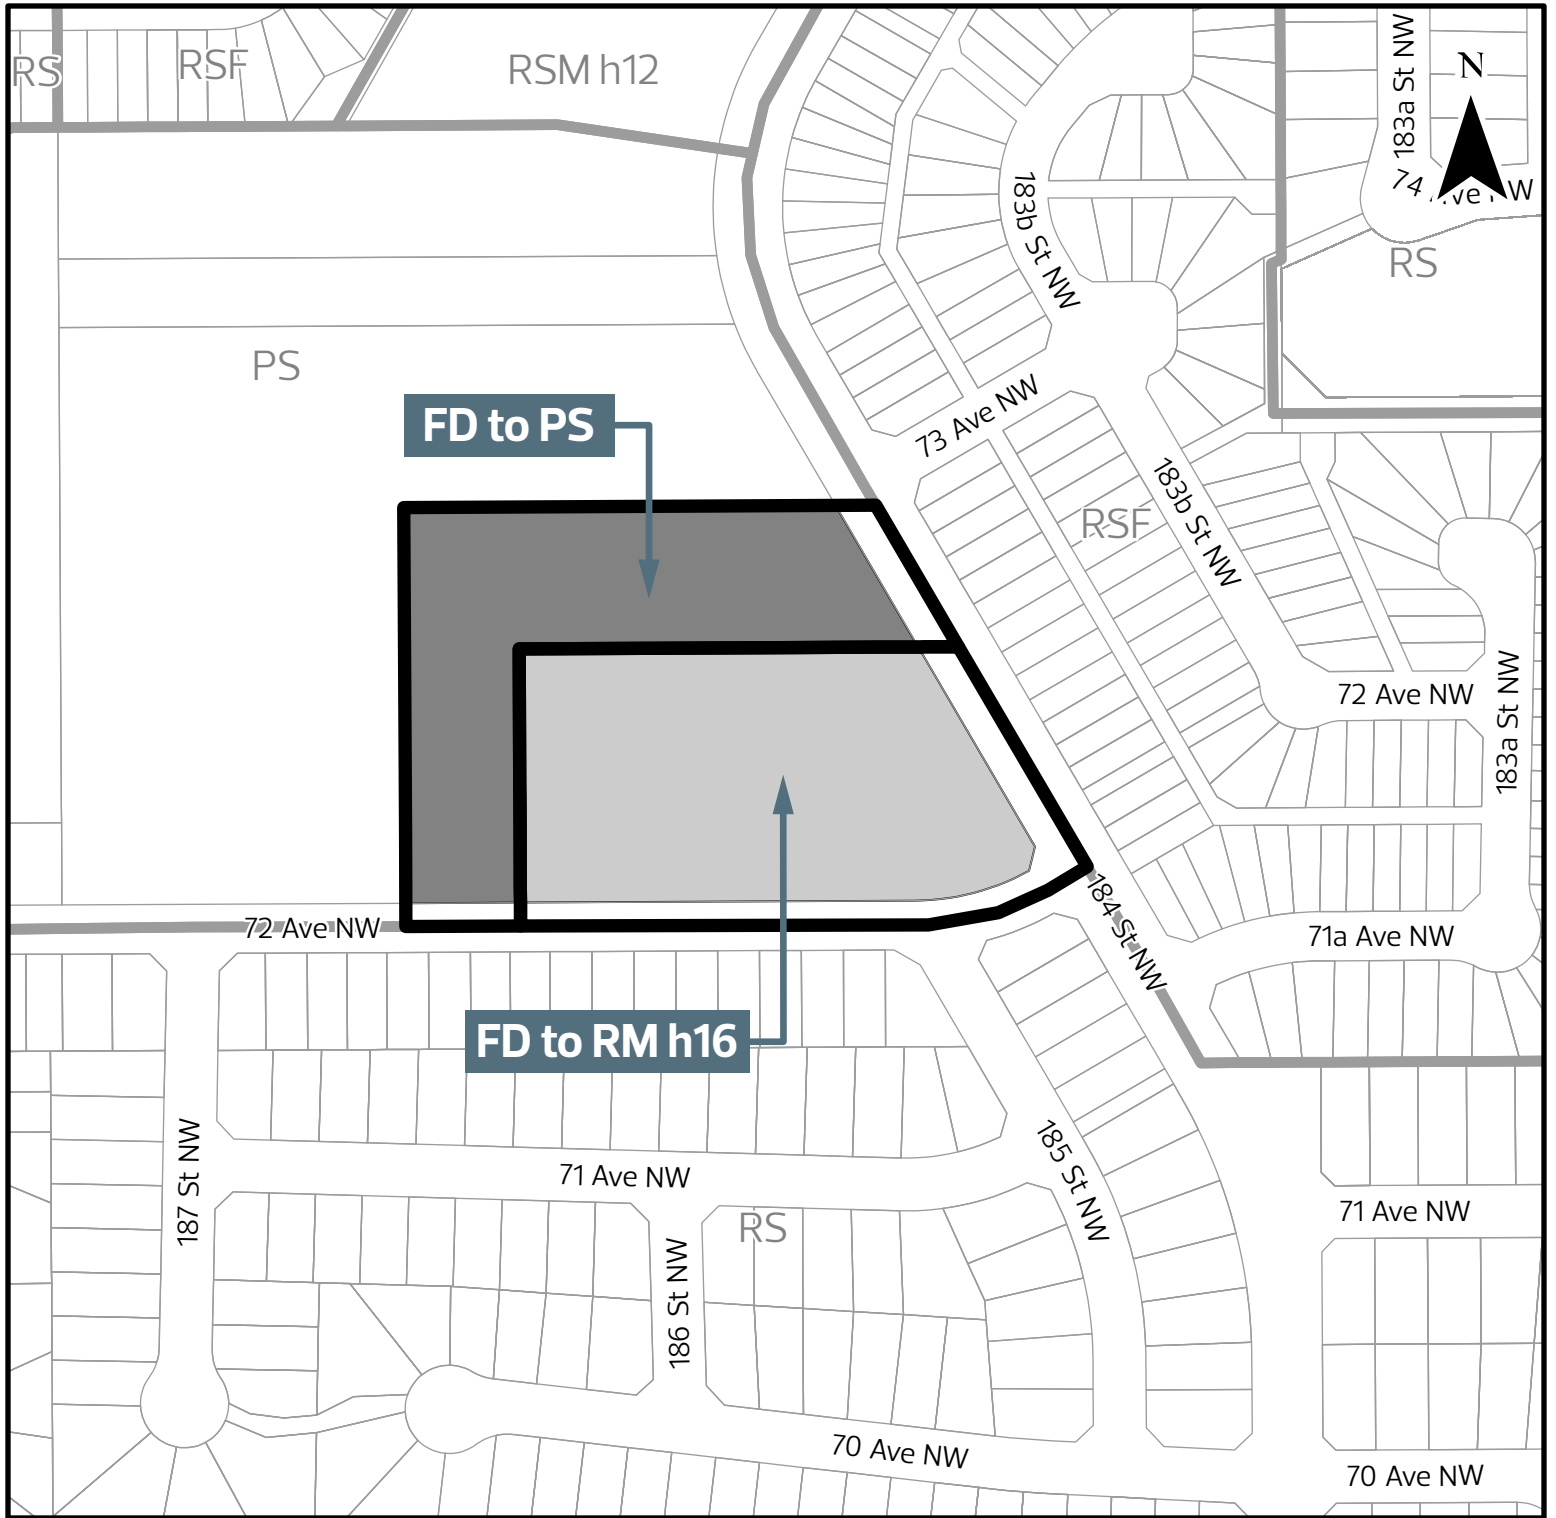

City Council is the decision maker on all rezoning applications. Another letter will be sent when a Public Hearing date has been set. Building design and construction happens at a later stage if the application is approved by City Council.
