

November 2025

Mill Creek Trestle Bridge and Culvert Replacement

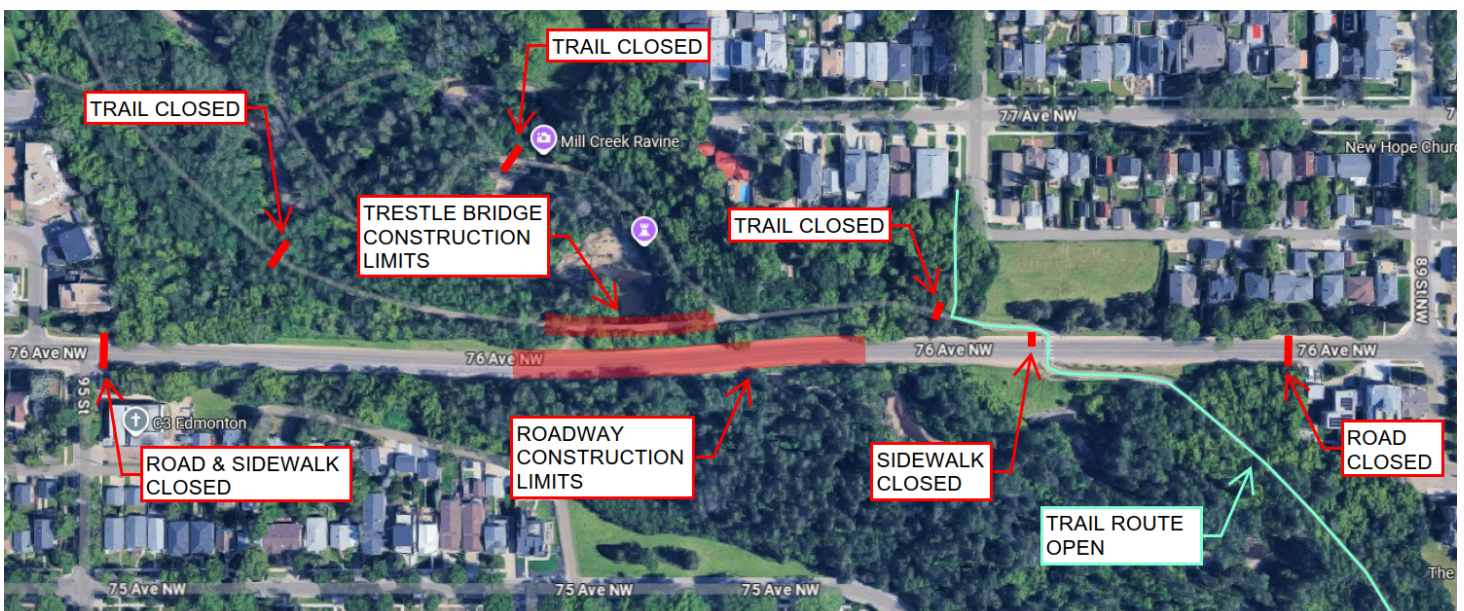

The City of Edmonton and Alberco Construction will be replacing the Mill Creek Trestle Bridge (B536) located within Mill Creek Ravine along 76 Avenue. To increase ravine flow capacity and address soil erosion issues, this project also includes replacing the culvert that carries Mill Creek under 76 Avenue with a new roadway bridge (B537).

Construction is expected to begin the week of December 1 and continue until the end of October 2026. 76 Avenue will be closed from 89 Street to 95 Street for the duration of the project. Pedestrian trails leading to the trestle bridge will be closed until spring 2026.

Scope of Work

- Slope stability
- Trestle bridge removal and replacement
- 76 Avenue road and culvert removal
- 76 Avenue roadway bridge construction
- Creek realignment
