- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$662.00 - 2018 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- Access for future development must be to the adjacent alley in conformance with the Mature Neighbourhood Overlay Sec. 814.3(17) of the Zoning Bylaw #12800. Further details of access will be reviewed upon submission of a detailed site plan or development permit application.
- There is an existing access to Lansdowne Drive NW. Upon redevelopment of proposed Lot 6A, the existing residential access to Lansdowne Drive NW must be removed. The owner/applicant will be required to obtain a Permit to remove the access, available from Development and Zoning Services, 2nd Floor, 10111-104 Avenue.
- The Lansdowne neighborhood is on the Neighbourhood Renewal program. This particular location is scheduled for reconstruction in 2018. Subdivision Planning recommends that the owner/applicant email BuildingGreatNeighbourhoods@edmonton.ca to coordinate any work on road right of way.

Building / Site

- Good local construction practices must be employed in accordance with proper engineering design. Grading and surface drainage management are important issues that must appropriately be addressed. The applicant must be aware that they are fully responsible to mitigate all geotechnical risks to surrounding properties and structures. Notably, all design and construction measures, including temporary and permanent retaining structures, and lot grading plans and surface drainage measures, must suitably protect neighbouring properties, structures and infrastructure from any adverse impacts during construction.
- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

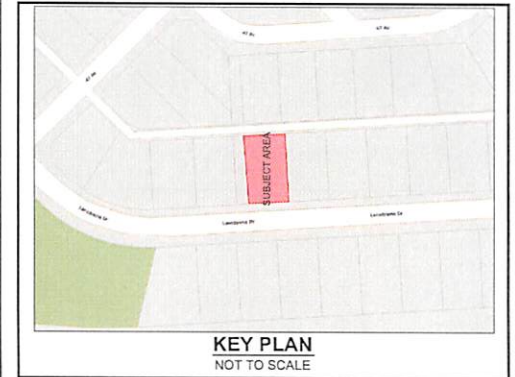

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222) and EPCOR Drainage Services (water and sewer servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 10.2 m east of the west property line of Lot 6 off the lane. The existing storm service enters the proposed subdivision approximately 10.67 m west of the east property line of Lot 6 off Lansdowne Drive NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
