

Community Feedback on Draft Design Engagement Summary

Malmo Plains Neighbourhood Renewal

REFINE

Online Engagement

In June 2020, we hosted **Online Engagement** opportunities for Malmo Plains Neighbourhood Renewal. The engagement opportunities included: a draft design video, a question and answer forum, an information package and an online survey.

We asked residents to help **REFINE** the draft design to ensure it reflects the Vision and Guiding Principles for Malmo Plains. A video of the draft design showed the proposed improvements for park spaces and walking, driving and biking connections for Malmo Plains.

Paper copies of the information and the survey were also available upon request.

319 unique video views
18 paper copies requested

Online Survey and Q&A Forum

An online survey was open from June 15 – 29, 2020 to gather feedback on the draft design.

Participants were able to ask the project team questions about the draft design through the Engage Edmonton website.

144 completed surveys
Over 30 questions and comments

The feedback from online engagement will be used, along with technical requirements and City policies and programs, to finalize the draft design for the renewal of the Malmo Plains neighbourhood. A report on what we heard will be available in August 2020 and at the next event in fall 2020.

Although the survey is closed for feedback, the draft design video, information package and the questions and answers are still available to view on the project webpage.
