NERP LONG TERM 1 NEIGHBOURHOOD REHABILITATION

As part of the 2019 Neighbourhood Renewal Program, The City of Edmonton (Building Great Neighbourhoods) will be coordinating construction in the Mayliewan, and Ozerna Neighbourhoods.

Construction is tentatively scheduled to start the week of June 17, 2019 in your neighbourhood.

Prior to the start of construction in front of your house, the Prime Contractor working for the City will deliver a bulletin outlining the estimated start/finish dates along with their contact information.

Please note: the duration of construction in front of your house may be up to 4 weeks (weather dependent).

SCOPE OF WORK

The construction consists of road reconstruction (which will include removal of existing asphalt and road base, installation of a subdrain system, placement of new road base, miscellaneous concrete repairs, and asphalt paving). **On the back of this bulletin is a map of Mayliewan and Ozerna which identifies the work planned for 2019.**

ACCESS

During construction of each stage, affected residents **will not** have access to the street or driveways. The construction will be staged in 100 metre lengths to minimize disruptions to residents. No parking will be permitted in signed areas. Emergency access will be maintained at all times. ***If you have special access requirements, such as DATS, please contact the Project Manager to coordinate access.***

ROAD CLOSURES: Toward the completion of each portion of the project, the roadway will be closed to traffic on selected days to facilitate asphalt paving. A bulletin will be circulated to the affected homes and businesses 5 working days prior to this work.

HOW YOU CAN HELP

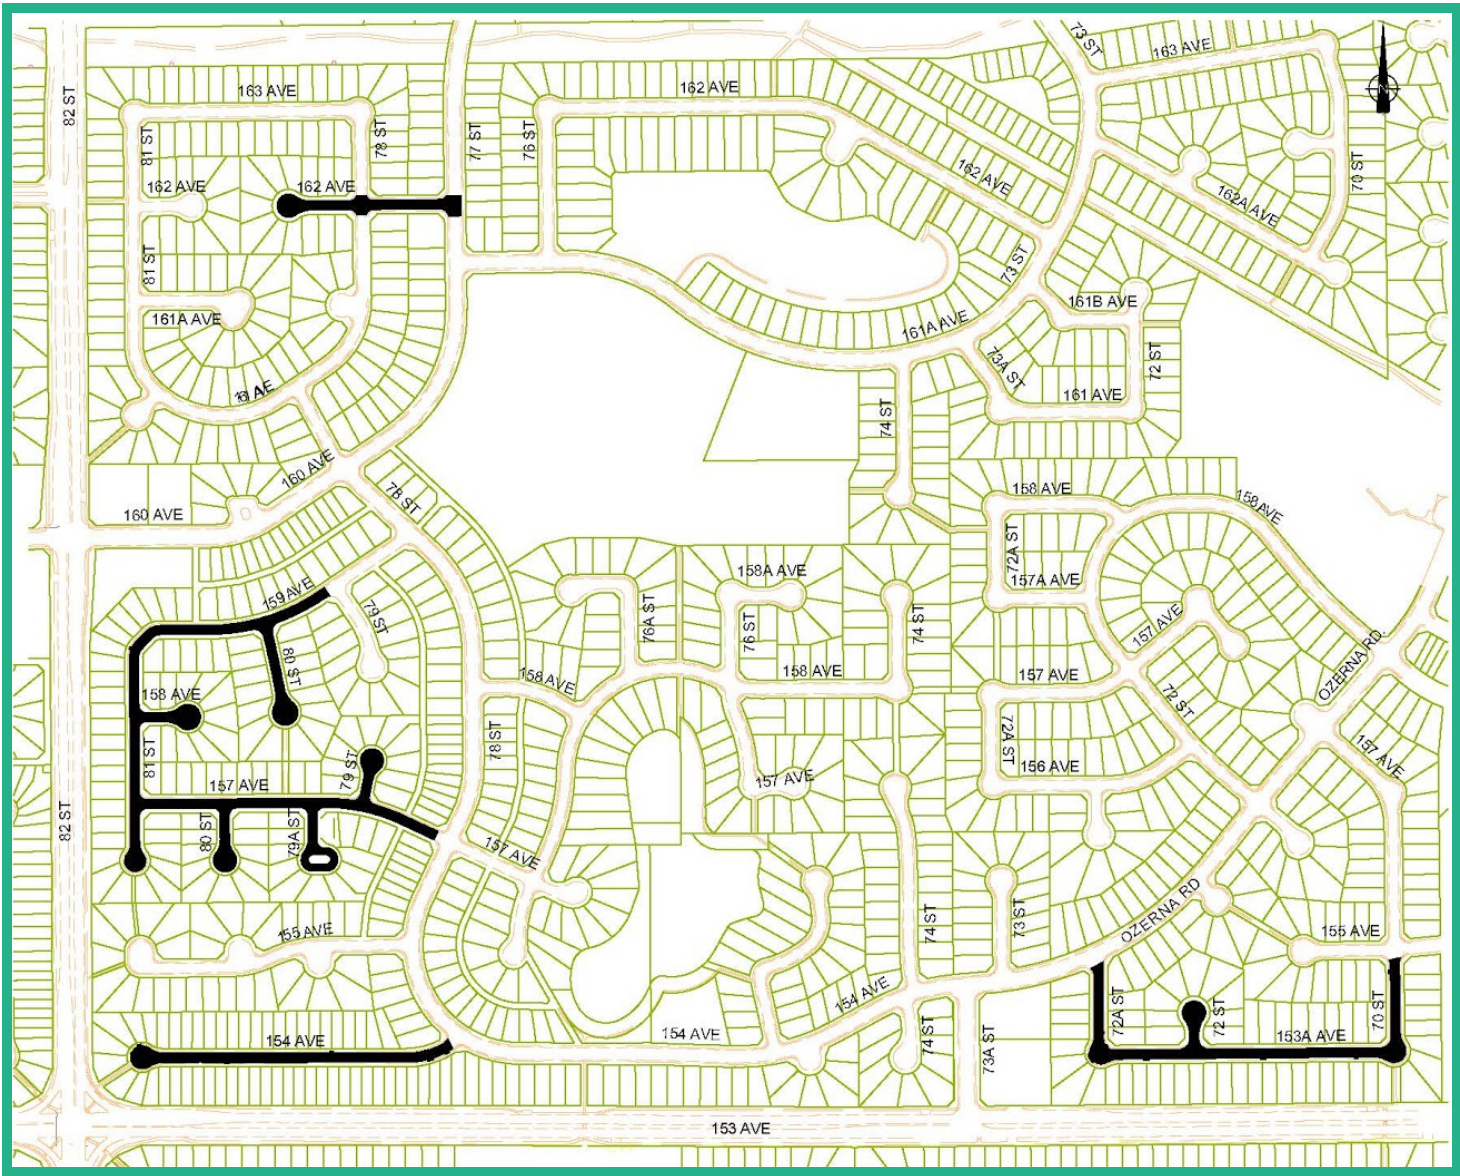

- As part of the construction process, some re-landscaping will be necessary. Please mark all underground sprinkler systems to avoid damage during construction.
- If a garbage/recycle pickup date occurs during a street closure, please place bags at the end of the closure closest to your property.
- Please relocate sump hoses during construction to prevent drainage over the sidewalk.

For information about what to expect during construction please contact:
