

## Warehouse Technician I

---

### **DEFINITION**

Generally duties are performed under the supervision of a Warehouse Administrator or a Warehouse Technician II, however incumbents may be required to exercise limited independent judgment and personal initiative. General instructions, objectives and established procedures govern most aspects of the work, however, employees are responsible, in collaboration with their customers, for assigning priorities and applying proper warehousing methods in their area.

Within administrative guidelines (as amended from time to time) the work may involve, ordering, receiving, unpacking and inspecting deliveries of materials, this may include reconciliation for price, quantity, quality and damage. Initiative and independence is exercised in contacting vendors, and in the application of proper stock keeping methods.

Employees are required to maintain simple warehousing records of materials and to do strenuous manual work. Drives a light truck to pick up and delivery materials when required.

Participates with project activities.

### **TYPICAL DUTIES\***

Receives, unloads and records parts, equipment, tools and other supplies.
