SHAPE OUR CITY

Edmonton

June 2018

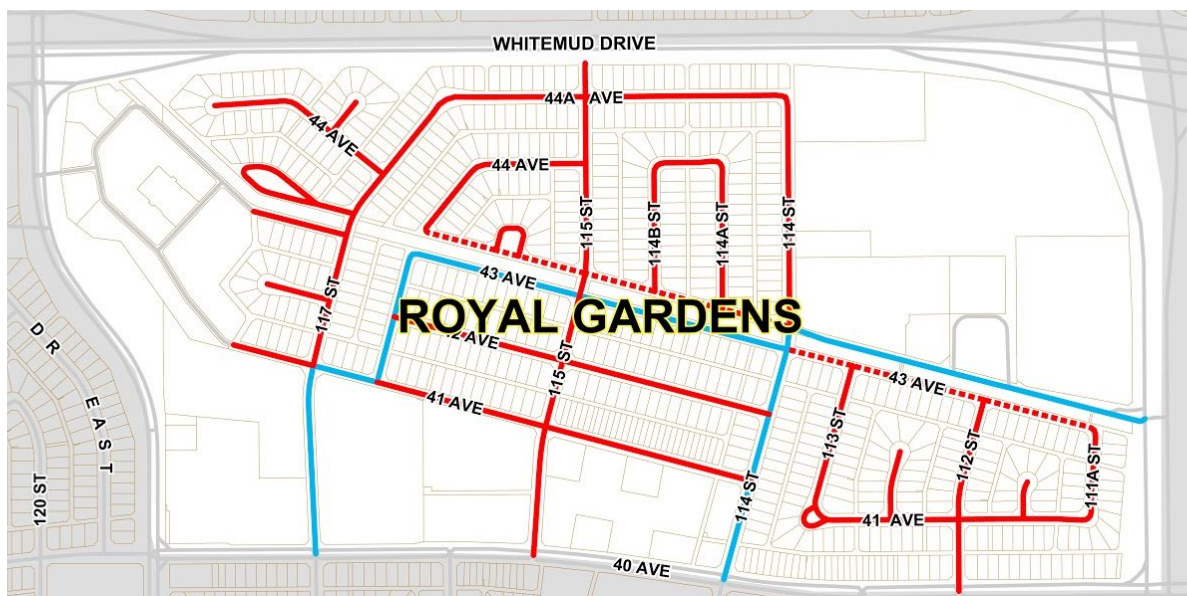

Project Overview

Starting in 2019, Royal Gardens will see the replacement of its aging collector and local roadway surfaces, street lights, and sidewalks as part of the City of Edmonton's Neighbourhood Renewal program for mature neighbourhoods. Planning for this renewal has begun. A new dedicated City branch, Building Great Neighbourhoods, has also been exploring improvements to other City-owned areas within the neighbourhood, including green spaces and parks, and will look for opportunities and funding to make desired upgrades and enhancements in coordination with the Neighbourhood Renewal program. Public Engagement to inform this planning is underway with construction scheduled for Spring 2019 to Fall 2020.

The neighbourhood boundaries are between 40 Avenue and Whitemud Drive, and between 111 Street and 119 Street. The project does not include back alleys or the arterial roads surrounding the neighbourhood which are part of a different funding program.

Where We Are Today

As a follow-up to the previous engagement events and surveys, the June 27th **Draft Concepts Public Event** will introduce the initial draft concepts for new infrastructure in Royal Gardens. You will be asked to give feedback to help refine the draft plans which include open spaces, parks, traffic, connections, off-leash dog areas and bike routes in the Royal Gardens neighbourhood as well as improvements to the public area next to Petrolia Mall. Input from you will help prioritize improvements in support of the vision and core values for the neighbourhood as identified at previous engagement events.

About Building Great Neighbourhoods

Working together to make the most out of your neighbourhood

This is your city and your neighbourhood. We want to understand how you experience your neighbourhood and ask for your input on what we might do to make it better. We will engage and work with you on the renewal of roads, sidewalks, street lights, and park spaces, and promote other community opportunities to enhance how people live and interact in your neighbourhood. We commit to being open and transparent about how your input is used. Let's make the most out of your neighbourhood.
