Enclosures

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$686.00 - 2021 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There is an existing access to 100 Avenue NW. Upon redevelopment of proposed Lot 22, this access must be removed in conformance with Major Commercial Corridor Overlay section 813.4(10) of the Edmonton Zoning Bylaw 12800. The owner/applicant will be required to obtain a Permit to remove the access, available from Development Services. Apply online at www.edmonton.ca/permits.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter Lot 22 via cross-lot servicing from Lot 21. The existing storm service enters Lot 22 approximately 3.96 m west of the east property line of Lot 22, off 100 Avenue NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line. As per arrangements made with EPCOR, redevelopment of proposed Lot 22 will compel new water and sanitary services directly off existing EPCOR mains.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line, the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. Transportation

- There are existing boulevard trees adjacent to the site on 78 Street NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Site access has been approved to the alley. Specific details of access have been reviewed through a Development Permit for the site (POSSE # 373267089-006).
- There is an existing power pole in the alley. Site access must maintain a minimum clearance of 1 m from the closest edge of the power pole to the closest edge of the proposed driveway.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The existing services (water and sanitary) enter the proposed subdivision approximately 5.5 m south of the north property line of existing Lot 20 off of the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a water main located within a laneway adjacent to the west property line of existing Lot 20. Any party proposing construction involving ground disturbance to a depth exceeding 2.0 m is required to enter into a Facility Proximity Agreement with EPCOR Water, prior to performing the ground disturbance. Please contact waterlandadmin@epcor.com with your request or for more information.
- There is a deficiency in on-street fire protection adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$686.00 - 2021 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on 123 Street NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with Mature Neighbourhood Overlay Section 814.3(17) of the Zoning Bylaw #12800.
- There is an existing access to 123 Street NW. Upon redevelopment of proposed Lot 5B, the existing residential access to 123 Street NW must be removed. The owner/applicant will be required to obtain a Permit to remove the access, available from Development and Zoning Services, 2nd Floor, 10111 - 104 Avenue NW, Edmonton.
- Traffic calming measures have been implemented along 123 Street NW, limiting potential access opportunities to the front street. If the applicant chooses to apply for a front access variance, it may not be supported by Subdivision Planning's transportation review team.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. - The existing services (water and sanitary) enter the proposed subdivision approximately 11.1 m south of the north property line of existing Lot 5 off of the lane. Please note that the existing water line is lead and must be removed and replaced. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a water main located within a laneway adjacent to the east property line of existing Lot 5. Any party proposing construction involving ground disturbance to a depth exceeding 2.0 m is required to enter into a Facility Proximity Agreement with EPCOR Water, prior to performing the ground disturbance. Please contact waterlandadmin@epcor.com with your request or for more information.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).

- There is an existing power pole and guy wire that will interfere with access to the proposed Lot 5A. Subdivision Planning highly recommends that the applicant/owner initiate the relocation of the power pole/guy wire with EPCOR Distribution & Transmission as soon as possible as this pole will inhibit alley access to the site and will result in a delay with the issuance of the Development Permit. The applicant will have to submit an email to EPCOR Customer Engineering at 'ces@epcor.com' if they wish to inquire about having the anchor downhaul modified or relocated.
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
