

# ELECTRIC VEHICLE

Transportation is responsible for 30% of our greenhouse gas emissions and 40% of our energy use.

## 1 OPERATIONS AND MAINTENANCE SAVINGS

Owning an EV can save you about \$1,900 annually on fuel and maintenance. No oil changes either!

## 2 CHARGING YOUR EV

Charge from the comfort of your own garage. Out and about? Charge up at several locations around Edmonton.

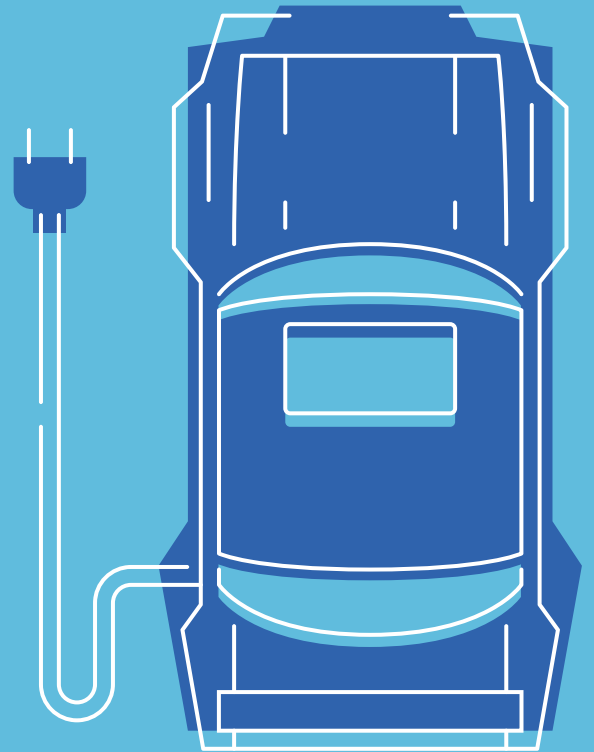

## 3 DRIVING RANGE

EVs today have a single-charge range of 100 km to 450 km. Cold weather could reduce the range of an EV by up to 40% but that still more than covers average daily trips.

## 4 ENVIRONMENTAL BENEFITS

EVs produce no tailpipe emissions so you (and everyone around you) can breathe easy. Even with today's electricity grid, EVs have 33% fewer emissions.
